# Configure IMAP for iPhone or iPad

The iPhone and iPad supports IMAP. Following are the steps to configure device for IMAP.
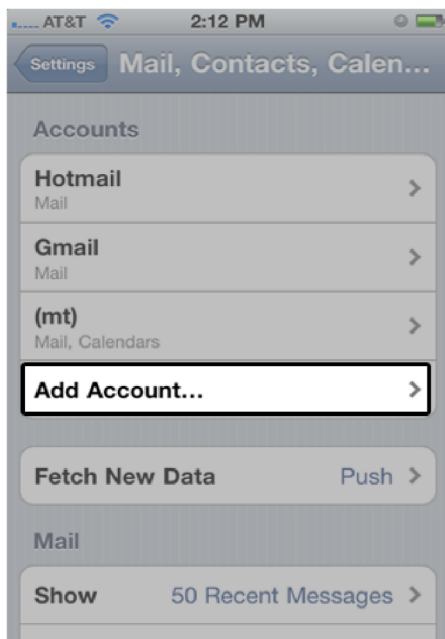

1. From the Home screen, choose Settings.

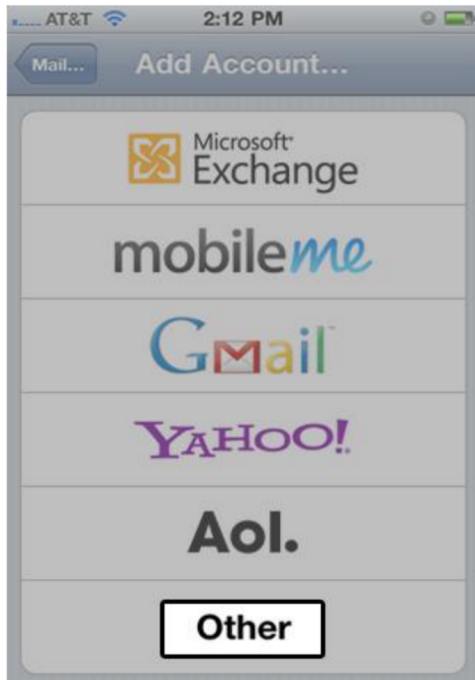

2. Next, tap Mail, Contacts, Calendars.

3. In the Accounts section, tap Add Account.....

4. Select Other.

5. Select Add Mail Account under the Mail section.

6. Enter your name and email address. Then tap Next.

7. Select the IMAP option

8. The iPhone indicates these fields as *optional* but they are not.  Please enter user Name and Password

9.  On the next screen, Please enter Incoming Mail Server information

Host Name: mail.gov.in

User Name:userid@ias.gov.in

Password: password of your mail.

And Outgoing Mail Server (SMTP)

Host Name mail.gov.in

User Name: userid@ias.gov.in

Password: password of your mail.

10. Hit continue on prompted massage.

11. Tap Save to save the entered information. Your iPhone will then verify your account information.

Upon Successful completion, you will be taken to mail screen. Your account will now be listed.
